

Please note the Government technical specifications for PPE:

<https://www.gov.uk/government/publications/technical-specifications-for-personal-protective-equipment-ppe>

The following link defines the requirements in Lot 1 for Fluid-resistant (Type IIR) surgical masks (it is pages 3 and 4 of the following link)

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/877387/Specification_for_Personal_Protective_Clothing_PPE_to_include_Gowns_Surgical_Face_mask_Respirator_masks_Eye_Protection_Protective_Coveralls.pdf

It would seem to confirm that the standards to qualify as a Fluid-resistant (Type IIR) surgical mask are BS EN 14683:2019 with a PFE of 98%.

There are a high number of masks currently being sold which are either being sold with certificates showing a code of EN 149:2001+A1: 2009 which I understand **are not** Fluid-resistant (Type IIR) surgical masks; and Surgical masks that do not have the required 98% PFE rating.

Some items being advertised below may not be up to this standard. Please check before purchasing.

Free to Join - need to be a member to access lots of suppliers and stock available.

The **face mask adaptors** are knitted or crocheted and about 2 inches in length. They have buttons on each side. This is to protect care workers ears from becoming sore as the elasticated masks hook around the buttons rather than their ears. These are only effective with elasticated masks, not the tie up masks. The feedback we have had is very positive. These are a donation from Elmbridge face mask adaptors (Facebook page)

<https://www.youtube.com/watch?v=9Fjo-kJcr80>

Care homes can contact me through the facebook page or by calling 07710016081 or

We set up Visors for Care Givers 3 weeks ago and in this time we have mobilised a team of over 100 volunteers to assemble and deliver over 20,000 visors across Surrey and Hampshire, predominantly to care homes, but also to hospitals, hospices, surgeries, funeral parlours and carers.

We are still finding that care homes especially are sorely lacking in PPE and have no face visors.

Face visors work effectively as they protect the three key entry points for the virus.

We are now trying to re-distribute the stock in various parts of the country to the care homes that need it most.

Care home shopping

The trusted place to compare suppliers of care home equipment and consumables in the UK. Buy from genuine suppliers. Surgical masks, face visor, alcohol handgel for care sector. Easy to order and varified products.

***** Amily Home care - PPE Supplies Partnership *****

My name is Butch Seal and I am the Managing Director at Amily Homecare in Walton-on-Thames, Surrey.

Due to concerns re: escalating PPE costs, we took the initiative and via an importer recommended by our accountant – we set up a supply chain for ourselves direct from China. The importer suggested we roll this out to other care providers – and the PPE Partnership was born. The principle of the set-up is; (1) We source PPE for other care providers like ourselves (2) We therefore secure better prices through buying power (3) We knock out unnecessary resellers, distributors etc along the supply chain (4) We charge a nominal admin fee to provide & manage this service. Steve & Betty (our importer and agent) have vetted PPE from regulated manufacturers who are experienced in their field. For example, the FFP2 Face Masks come from an established pharmaceutical/medical supplies company and are CE & FDA certified.

SKU	Item	Info	Colour	Unit	Estimated Unit Price	Lead Time	First Order	Ongoing Orders
							Estimated Quantity Required	Estimated Quantity - Every 2 to 3 Months
MK011	Disposable Face Masks (FFP2)	 3-ply non-woven, blue filter rating BFE 99.6%, Type II, EN 14683	Blue	100 masks per pack	£42.60	Estimate 3 weeks from placing order (air freight)		
GE002	Disposable Plastic Apron	 Size 27 x 46 inches, thickness 14 micron, SGS certified	Blue or Clear	1 Pack of 100 aprons	£7.74	Estimate 4-6 weeks from placing order
